

Greetings,

We would personally like to invite you to attend the Mississippi Society of Health-System Pharmacists (MSHP) Annual Meeting, particularly the Ambulatory and Transitions of Care Pharmacy Practice Advancement workshop. The workshop is scheduled for Thursday, July 26th 10:00 am – 2:00 pm, at the Oxford Convention Center in Oxford, MS. The purpose of this workshop is to define a vision for the future of ambulatory and transitional care pharmacy practice across Mississippi. The workshop will be facilitated by Kate Hartkopf, Pharmacy Manager for Ambulatory Care Services at University of Wisconsin (UW) Health. Kate has extensive experience in implementation of progressive pharmacy services in many settings and with successfully facilitating practice advancement workshops in several states.

The profession of pharmacy within Mississippi must consistently and collaboratively work with patients, caregivers, and other health care professionals to establish sustainable models for seamless transitions across the continuum of care. The Ambulatory Care PAI workshop is the first step in propelling us towards this direction.

The workshop will focus on the following:

- The Mississippi Experience and national trends in ambulatory pharmacy practice advancement;
- Mississippi's opportunities (based on the data from a *soon to be* distributed survey of Mississippi ambulatory care practitioners, pharmacy directors, and registered workshop participants);
- Ambulatory and transitions of care practice expansion strategy, including residency program expansion and extending the roles of pharmacy technicians

To register for the meeting please follow the link below:
